**COMPLETE SIGNAGE**  
 COMPANY FOR THE  
**OIL & GAS INDUSTRY**

# LEASE SIGNS

Our oilfield lease signs are made from aluminum with a baked-on enamel finish and backgrounds are available in a broad range of colors. We do not charge set-up fees for producing a company logo. Logos can be screen printed on both engraved and ink-filled signs with a thermosetting acrylic enamel and baked in a high-temperature conveyor curing unit for maximum outdoor durability.

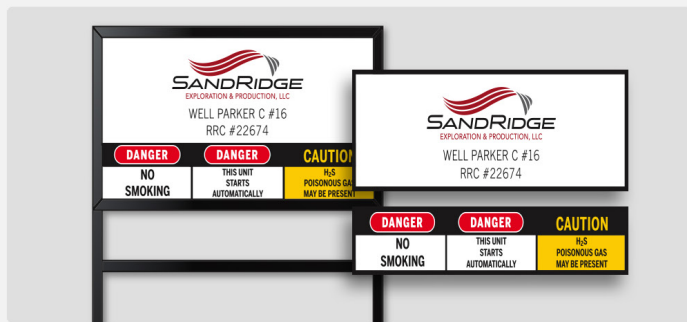

## Engraved

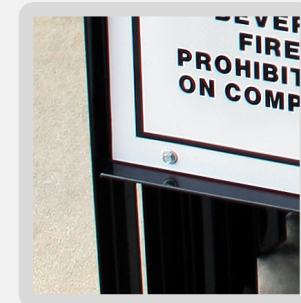

All lease information is engraved directly into the aluminum, providing an extremely durable product.

## Ink-Filled

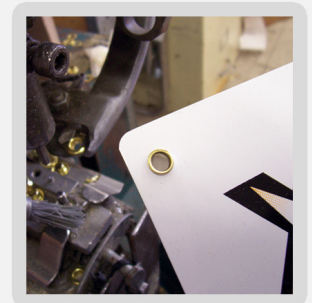

Engraved lease information can also be ink-filled with select color options to match your company's branding.

## Lease With Multi Sign

Frame detail  
 (powder coated finish)

Grommet detail

## Options

Logos can be screen printed with a thermosetting acrylic enamel and baked in a high temperature conveyor curing unit for maximum outdoor durability. All lease signs are securely shipped with brass grommets and rounded corners, or bolted into a powder coated angle iron frame.

shop online and build your own sign at [centurygs.com](http://centurygs.com)

## LOCKOUT TAGS

Use locks & tags to disable equipment or pipelines and vessels prior to maintenance, cleaning, or inspection. Lockout tags allow you to identify everyone working on the line.

## AERIAL MARKERS

Our Aerial Markers are specially designed for locating and determining the direction of transmission systems. Choosing a Century Aerial Marker maximizes visibility of pipelines or cable routes, increasing the speed and efficiency by which the damage can be found and repaired.

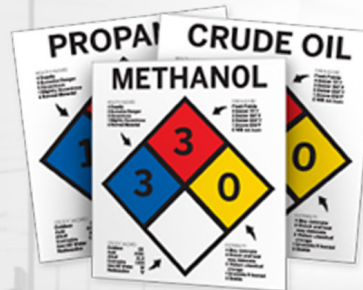

Our new Century "No-Fade" aerial marker plates give you years of visibility.

## JOB SITE SIGNS

Our portable job safety and compliance signs are great for getting the safety warnings or direction indicators from job site to job site. Our frames are made using 1" or 1½" angle iron, and have a welded hinge & chain for long-lasting strength and durability.

## NFPA LABELS

\*Ask about our new Dura-Haz labels for the harshest environments

Our decals and signs are made from materials selected to ensure maximum outdoor durability. Choose self adhesive vinyl or rigid aluminum sign. Frames are available for all of our signs.

## PIPELINE MARKERS

Our utility markers are designed for outdoor durability in harsh conditions, and sharply printed with permanent UV resistant inks in bright AWPAs colors. Our standard format can be semi-customized with your company name, address, phone number and company logo.

- Pipeline Marker Labels
- Fiberglass Markers Stakes
- Utility Marker Signs
- U-Channel Mounting Posts
- Dome Pipeline Markers

# SAFETY SIGNS & DECALS

Century Graphics & Sign manufactures a full range of durable, OSHA-headed and application-specific safety signs with English, Spanish, and bilingual language options. We offer standard materials and sizes, as well as semi-custom and custom options on all products. Our safety signs are made to comply with OSHA regulations and can be made to custom specifications for your company's needs. We'll design the sign to fit your needs, and we can add any phone number(s) you may require.

## HARD HAT DECALS

Recognize employee certifications and accomplishments with durable, self adhesive vinyl labels.

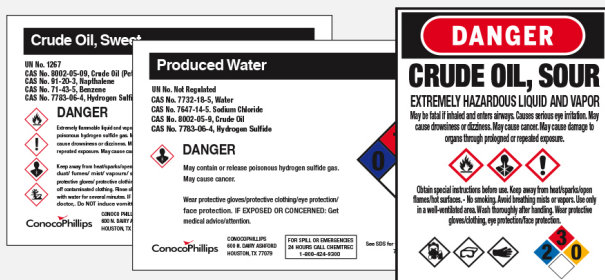

## MULTIPLE SAFETY SIGNS

Our multiple safety signs are the perfect solution for your safety sign needs. We combine all of the safety signs you need for your particular location into one easy to read, convenient sign.

## GHS LABELS & SIGNS

The GHS is the most optimal system for standardizing and harmonizing the classification and labelling of chemicals. Defining the health, physical and environmental hazards of chemicals.

Stay in compliance with Century

## PIN FLAGS

Bright-colored vinyl pin flags are visible at long distances and are ideal for temporary outdoor marking.

## WINDSOCKS

Our windsocks are made from heavy weight nylon material. They come double-stitched and grommeted for strong wind resistance.

## WIND ARROW

This extremely durable yet lightweight wind direction indicator is highly visible and reacts swiftly to changing wind directions. Century manufactures the wind arrow from field proven materials that have been used in the oil patch for years with great success.

\*Reacts to wind as low as 4MPH
